

Sustainable Electricity

Governance process

ARTICLE 33

Why a sustainable electricity supply?

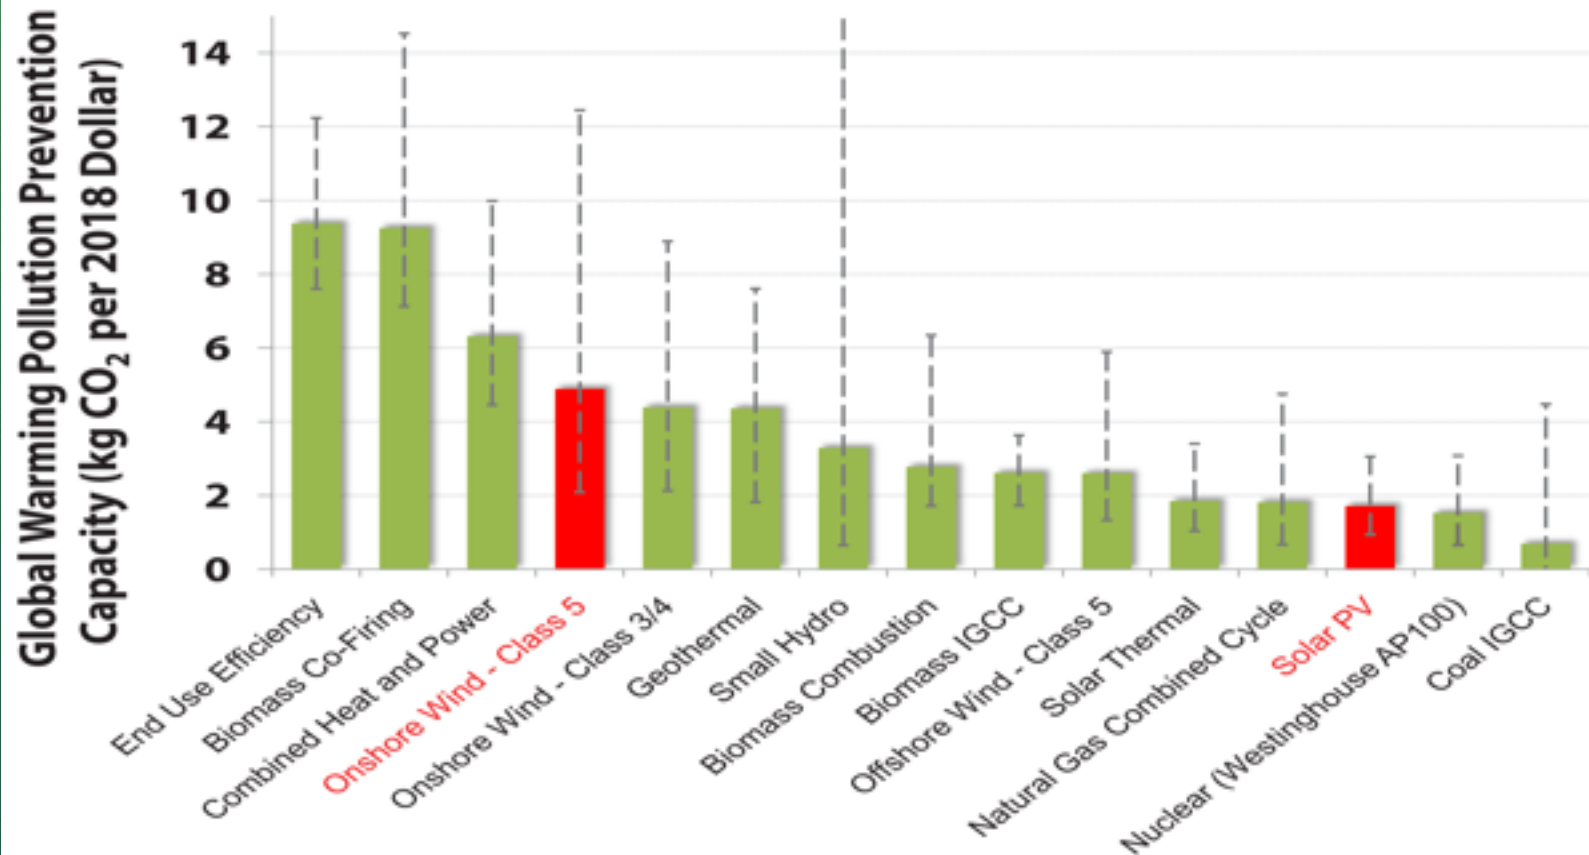

TO REDUCE GREENHOUSE IMPACTS

Two options

ARTICLE 33

Greenhouse reduction

Business model, wind

- Parallel to solar
 - Find an entrepreneur
and land, a mountain top
 - With the addition, to add scale:
Join hands with like-minded town(s)

Gating factor: Town staff time

The choice:

Later, perhaps: Solar

Objections

ARTICLE 33

- Local control?
- Cost saving?

Form of the article

First four elements:

A ‘work order’

Fifth element:

Process made explicit
